www.linkedin.com/in/deepakmistry-8a3219261 | Mumbai, IN

PROFESSIONAL SUMMARY

Aspiring software developer with practical experience in Java, Node.js, SQL, and MongoDB. Skilled in building scalable web applications and solving real-world problems. Quick learner with a strong foundation in programming and a passion for continuous growth.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript

Web Technologies: HTML5, CSS, React.js, Node.js, Express.js, REST APIs, TailwindCSS, Bootstrap

Databases: MySQL, MongoDB

Version Control: Git, GitHub

EDUCATION

BE | Electronics and Telecommunication | 2026

Mumbai University

SGPI: 7.4/10

PROFESSIONAL EXPERIENCE

Web Development Intern

EMU Carshed | Mumbai | Dec-2024

- Developed a real-time work progress tracking system to help supervisors monitor, manage, and update task.
- Secure authentication and role-based access control to ensure authorized usage across different users.
- Designed advanced search and filtering features to quickly locate tasks and improve operational productivity.
- Developed a scalable backend using Node.js, Express.js, and MongoDB to handle real-time data and task.

PROJECTS

1) Wander-Stay Holidays

- A full-stack web application for booking nearby hotels and villas with a user-friendly interface.
- Implemented secure authentication and role-based access control for users and property owners.
- Added search and sort functionality to help users find and filter stays based on preferences.
- Utilized Node.js, Express.js, and MongoDB to create a scalable and efficient backend system.
- Integrated MongoDB Atlas for cloud-based data storage, ensuring scalability and remote accessibility

2) Portfolio Website

- Developed a dynamic single-page portfolio application using React.js.
- Implemented reusable functional components with React Hooks (useState, useEffect) for efficient state and lifecycle management.
- Integrated React Router to enable seamless navigation between multiple sections without page reloads.
- Applied responsive design principles using Tailwind CSS and deployed to a live hosting platform Netlify.
